CAREER OBJECTIVE

Computer Science Engineering undergraduate with strong problem-solving skills and experience in building scalable backend and full-stack applications. Proficient in REST API development, database integration, performance optimization, and cloud platforms (AWS, Azure). Smart Coder certified with hands-on experience in real-time systems and distributed architectures.

EDUCATION

Computer Science and Engineering CVR College of Engineering	CGPA: 9.03 2023–2027
Intermediate (MPC) Narayana Junior College	Marks: 963 2021–2023
SSC Bhashyam High School	CGPA: 10.0 2021

COMPETITIVE PROGRAMMING

- LeetCode: 300+ problems solved, Contest Rating: 1844 (Top 8%).
 - CodeChef: Rating 1501 (2★), Division 3, 26+ contests.
 - Strong foundation in Data Structures and Algorithms.
-

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript
Web Development: React.js, Node.js, Express.js, Spring Boot, HTML, CSS, Tailwind CSS, Bootstrap
Databases: MySQL, PostgreSQL, MongoDB, SQLite, Redis
Cloud & Tools: AWS, Azure, Docker, Linux, GitHub, VS Code, Colab, Power BI

PROJECTS

Smart Interview Scheduling and Evaluation System — React.js, Spring Boot, PostgreSQL, Gemini API

Full-stack platform for end-to-end interview workflows — scheduling, interviewer assignment, and candidate tracking with role-based access. Built RESTful APIs with Spring Boot and PostgreSQL; integrated Gemini API for automated candidate evaluation.

Decision Intelligence Platform for Social Entrepreneurs — React.js, Node.js, Express.js, MongoDB

Decision support tool built in a 36-hour hackathon that aggregates social and market data to help entrepreneurs make informed choices. Scalable Express.js + MongoDB backend with a React.js dashboard for real-time data visualization.

EduOS – AI-Powered Study Operating System — React, Node.js, Firebase

Personalized study platform with adaptive scheduling based on user progress, task tracking, and a real-time analytics dashboard synced via Firebase. Reduces planning overhead and improves retention through data-driven recommendations.

CyberSafe+ URL Checker — React.js, Python (Flask), SQLite

Phishing detection system using ML-based URL classification, improving accuracy by ~30% over baseline. Flask REST API serves predictions to a React.js frontend; SQLite stores flagged URLs and threat patterns.

CERTIFICATIONS

Smart Coder (Diamond Certification) — Smart Interviews
Red Hat Application Development I: Programming in Java EE (AD183-RHA, Ver. 7.0) — Red Hat, May 2026
Certifications in C, Python, Java, and Data Structures — EBOX
Zscaler Networking Virtual Internship — AICTE EduSkills

CO-CURRICULAR ACTIVITIES

Cognizant Technoverse Hackathon 2026 — Shortlisted among Top 5 teams out of hundreds of participants; advanced to the next round.

Led technical group discussions and collaborative problem-solving sessions.

Participated in a 36-hour hackathon conducted by GDSC.
